GENERAL CONCLUSIONS

regarding the Circassian SOOBOKOV, Cherim, Tuovich.

I know Subject since I was instructor at Ft. Meade. As a trainee he made an impression to me of an intelligent, energetic and a frank individual; he is an active, confirmed and fanatic enemy, not only regarding the communism, but he is also against all Russians whom he regards as damned enemies of his fatherland.

I did not change my opinion which even was confirmed during the recent interrogation. He grew up to a man physically and mentally since I met him last time.

In my opinion, he possesses many qualifications which are of great value to our organization:

1. Fanatic hate of communism.
2. The same fanatic devotion to his fatherland and great love of his natives.
3. Tireless readiness for struggle against communism for the benefit of his native people, in order to free his fatherland from the tyranny of communism.
4. He is unable to have any contacts with communism or to be a traitor of his national feelings, because of his fanatic implacability to communism. He is definitely incapable to be a double agent or to work with the Bolsheviks, he would better die than to agree with that.

CENTRAL INTELLIGENCE AGENCY
SOURCES METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT

This makes him to be a completely loyal coworker of our organization.

5. He possesses a great deal of organizational abilities.
6. He possesses a firm and stubborn attitude concerning his future assignments in such a high degree what is very difficult to find among the people. He never goes back from obstacles. After Germany was defeated, he continued a struggle for his group of Circassians until a complete victory was achieved.
7. He enjoys an authority among Circassians. No doubts that the same authority he would enjoy among other various Mahometan nationalities.
8. His present common sense predicts to us an effective development of his mentality, quick orientation in various situations and ability of proper approach to various individuals.

It would be necessary to point out the following defects of Subject:

1. Insufficient education which he, however, quickly improves.
2. A very temper character of the Caucasian people and a strong opposition to whole what is opposite to his feelings. He is too frank. He is unable to any slightest diplomatic intrigues. He must learn this in the future. He likes to criticize his own mistakes

and also the mistakes of other individuals. However, I would not like to say that he is completely unable to adopt the requirements of conspiracy. He possesses a very strict self-discipline and he requires the same from others. Such a discipline must prepare him to be an attentive conspirator.

3. He deceived the immigration service and some our officers by his created legend about his age and the service in the Soviet Army. However, his legend is unsuspicious and does not bear any political character, because this legend was dictated by the conditions of the special situation.

Summary: Subject is a very useful and trustful candidate for our organization.
